

COMPUTER AIDED DISPATCH CITIZEN INFORMATION

2011

The City of Port Coquitlam’s Computer Aided Dispatch Service assists Fire and Emergency Services personnel by providing more detailed property information such as hydrant location, cross streets and special information given to us by you, our residents. This detailed information enables our department to better provide you with prompt and professional service when responding to an emergency situation.

To ensure accurate records, the computer system will soon clear itself of the 2010 data input. This procedure takes place every year to ensure that our information is up-to-date and reflects changing situations such as the relocation of residents and other family and physical changes.

Once we receive your new form, our Fire Dispatch Computer will again be programmed with:

- ➔ the name and location of person(s) who **may require assistance** in the event of an emergency evacuation (*e.g. physical disability, visual or hearing impairment, special medical equipment such as oxygen tanks, etc.*)
- ➔ any type of special caution notes which would alert our fire fighters to **unusual** circumstances within your residence (*e.g. dangerous material storage, pets, location of children’s bedrooms, additional dwelling units within the home, etc.*)
- ➔ medical information that you feel could assist our First Responders

If you wish to register or **re-register**, please complete the section below and return it via mail or hand deliver to either:

#1 Fire Hall
1725 Broadway St.,
Port Coquitlam BC V3C 2M9

#2 Fire Hall
3196 Toronto Street,
Port Coquitlam, BC V3B 5K3

Or go to our website at www.portcoquitlam.ca to complete and submit this form online.

1.	Name:
