PRO: 2025-15

Dear Property Owner(s) and Resident(s):

Re: 2026 Transportation Upgrades – Wellington Street at Laurier Avenue, Jensen Avenue and Salisbury Avenue Intersections

Please be advised that the City is currently within the design phase of the upcoming Capital Works construction project to take place in your area. The transportation upgrades that are included within the scope of this project include the following locations:

- Wellington Street and Jensen Avenue;
- Wellington Street and Laurier Avenue;
- Wellington Street and Salisbury Avenue.

The scope of work includes:

- New pedestrian raised crosswalk at the north intersection of Wellington Street and Jensen Avenue paired with a new streetlight at the west leg of the intersection;
- New pedestrian raised crosswalk at the north intersection of Wellington Street and Laurier Avenue;
- New Rapid Rectangular Flashing Beacon (RRFB) and streetlight at the north intersection of Wellington Street and Salisbury Avenue.

The graphic labeled **Wellington Street** on page 2 further depicts the raised crosswalk improvements to take place.

The purpose of this project is to improve pedestrian safety and visibility for motorists of pedestrians on the crosswalks while also reducing vehicle speeds approaching the crosswalk.

Construction is anticipated to begin in Summer 2026. Although we will attempt to minimize major inconveniences to property owners, typical construction delays and disruptions may occur due to the nature and extent of the proposed work. All residents in the area will be informed of a proposed schedule by the Contractor in advance to minimize inconvenience.

You may view additional information for these specific projects by visiting portcoquitlam.ca/capitalprojects or use the QR code provided, and select the applicable Wellington Street project.

Should you have any questions related to the proposed works, please contact the undersigned.

Regards,

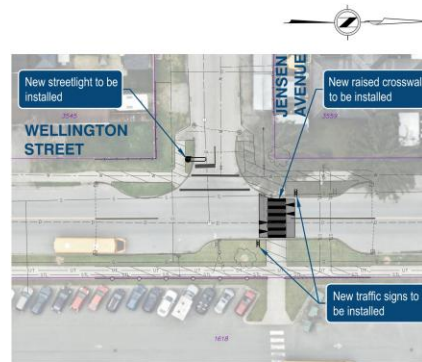

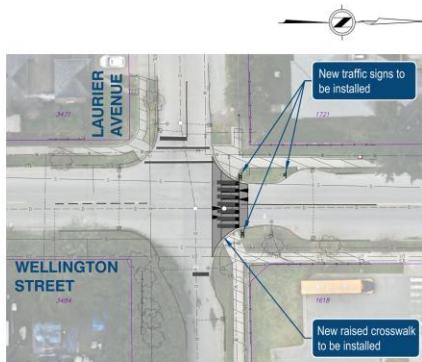

Matteo Santorelli
