PRO: 2025-15

Dear Property Owner(s) and Resident(s):

Re: 2026 Transportation Upgrades – Streetlight Expansion Program

Please be advised that the City is currently within the design phase of the upcoming Capital Works construction project to take place in your area. The Streetlight Expansion Program takes place annually at various locations around the City, this year's program locations include:

- Eastern Drive at Western Drive;
- Eastern Drive at Pooley Avenue;
- Wellington Street at Lincoln Avenue;
- Wellington Street at Patricia Avenue.

The purpose of this project is to provide pedestrian visibility by means of streetlight installation at unlit intersections and corridors based on road classification and pedestrian activity.

You may experience impacts to the boulevard (area between edge of travelled roadway and property line) fronting your property. These impacts include but are not limited to the following:

- Landscaping, tree and/or bush trimming or removal; and
- Boulevard disturbances – all grass will be restored accordingly.

Construction is anticipated to begin in Summer 2026. Although we will attempt to minimize major inconveniences to property owners, typical construction delays and disruptions may occur due to the nature and extent of the proposed work. All residents in the area will be informed of a proposed schedule by the Contractor in advance to minimize inconvenience.

You may also view additional information for this specific project by visiting portcoquitlam.ca/capitalprojects or by using the QR code provided, and selecting the 'Streetlight Expansion' project.

Should you have any questions related to the proposed works, please contact the undersigned.
