

Tree Replacement Plan for _____

(address)

N

Please indicate:

- Direction of North
- Location of structures and utility services (for subsurface connections see Display > Engineering Infrastructure, on [PoCoMap](#))
- Location of trees removed
- Location of trees to be replanted (numbered)

Replacement trees

Species and variety	Caliper diameter (cm)	Species and variety	Caliper diameter (cm)
1. _____	_____	5. _____	_____
2. _____	_____	6. _____	_____
3. _____	_____	7. _____	_____
4. _____	_____	8. _____	_____

Please note that replacement trees must be a minimum size of 5cm caliper diameter if a deciduous species, or a minimum height of 2 meters tall if an evergreen or coniferous species.

Caliper diameter means the diameter of the tree's stem measured at 15cm above the base of the tree.
