Dear Property Owner(s) and Resident(s):

**Re: Notice of Construction
Sanitary Trunk Sewer Replacement (Westwood St to Kingsway Ave) - Run 1**

As a continuation to our commitment in keeping our community informed, and as a follow up to our letter on November 21, 2024, I am writing to provide an update on the sanitary sewer upgrades that will be taking place in your area.

We are pleased to advise that the City of Port Coquitlam has recently awarded the construction contract to Complete Utility Contractors Ltd. to complete the work. Complete Utility Contractors Ltd. is scheduled to mobilize in March 2025. Additional notices advising of the schedule will be provided by the contractor as work progresses. During the course of construction, you may find the contractor will be working intermittently within your specific area. This is a result of them having to work in one specific area at any given time due to the relatively long length of sewer being installed.

The Contractor is permitted to carry out construction Monday through Friday between the hours of 7:00 a.m. and 7:00 p.m. and optionally on Saturdays between 9:00 a.m. and 7:00 p.m. Although a majority of the work will be completed during standard work hours, work required through some major roads will be completed during the night. Impacts to local residents and businesses are expected to be minimal. Further updates will be provided to those that may be potentially impacted by night works.

During construction, access for emergency services will be maintained and local traffic will be allowed through the construction zone, but may be limited to single lane or alternating traffic and subject to delays.

You may also experience construction related inconveniences such as dust, noise, vibration, and short term driveway access interruptions. We apologize for the inconvenience in advance and will endeavor to complete the work with as little impact to you as possible.
